

OUTDOOR FLAGS

Outdoor flags are printed using a high resolution direct to fabric digital sublimation printing process that produces rich colours and a full image "Strike" (95%+) mirror to the reverse side. Being a full colour process photo-quality printed flags are now possible.

Flags are finished with a double folded hem on all sides, plus a reinforced header with ropes and clips ready for flying on your flag pole.

Being a digital process, also means that you can order as little as 1 flag, or 10 flags with a different design on each one.

A standard full sized flag suitable for an outdoor flag pole is 1800 x 900mm. We can however custom manufacture a flag in almost any size you like.

- Reinforced header and clips
- Light weight
- NO minimum order quantities
- Full colour photo-quality prints
